

Alpha Omega Club
Newsletter

February 2007

Greetings to all A-O club members,

Good news ! – The new Alpha Omega Club chapter is being launched within the IFALPA web site (www.ifalpa.org) . Initially an interim access code for the Contacts page has been provided for all of you :

User Name (U/N) : alphaomega

Password (PW) : aoclub

This chapter will contain a short history of the A-O Club , space for the Newsletter and the Club's members listing .

This upgrading for the Club is a happy event with hopes of better communication among us all aided by more up to date information .

We are in the fast growing 'electronic communication' era and the Club's members are urged to have access to the Internet with an e-mail (either in house, via family/relatives or friends/neighbours). It will drastically improve our communication and access to information.

Finally, thanks to the people involved in this project – members who assisted ('Steering Committee') and the staff at Interpilot House.

Warm regards

Eli Bahat
